To Whom It May Concern

Lobell Construction Ltd was the main contractor for the construction of the Pekerau Primary School Te Awamutu, Library and Computer Suite.

As Consultants for this project, we found Lobell Construction to be outstanding in all aspects, from tendering to the completion of this project.

Lobell set up an excellent Health & Safety procedure that was implemented throughout the contract.

Good communication was provided with ourselves and School Principal and staff, and our on site dealing with site foreman Craig Read provided for an easily run project.

Our contract was completed to time and budget, which was beneficial to not only our client but to ourselves.

We would be happy to work with Lobell Construction Ltd on any future projects and would give our recommendation to any other person intending a construction project.

Yours faithfully,

Russell Easton
