

HAMILTON'S FRASER HIGH SCHOOL

TE KURA TUARUA O TANIWHARAU

23 August 2013

Fraser High School
72 Ellicott Road
Hamilton

To whom it may concern,

In July 2013, Lobell Construction Ltd completed a significant extension to our Technology building. The extension consisted of two new Food Technology classrooms which include a walk in chiller and freezer. The extension also included Fabric Technology classroom, multipurpose room, offices, storage areas and toilet/shower area.

The project was undertaken over a 10 month period and was completed on time and within budget. During this time Lobell has worked closely with the school to ensure that our needs were being met and disruptions were kept to a minimum.

Lobell has always communicated well with the school. The team at Lobell were always friendly and cooperative, easy to communicate and work with. The quality of their work has been of a high standard and we are very pleased with the final product.

Fraser High School would be glad to use Lobell Contraction Ltd again in any future construction project and we are happy to recommend them to other schools and business.

Kind Regards

Peter Robinson
Deputy Principal
