TO WHOM IT MAY CONCERN

I write in support of **LOBELL CONSTRUCTION**.

We recently contracted Lobell Construction Ltd to upgrade three of our laboratories using our 5YA funds.

I found working with Lue and his team to be a very worthwhile experience. I was impressed by the initiative and commitment Lue's employees made to the project. They used clear lines of communication and all aspects of the project were transparent. Lue's team responded to any changes we had and they also suggested some improvements and cost effective solutions to the problems we faced.

Lobell Construction Ltd completed the project on time and handed the laboratories to use with a high standard of finish. It is clear that Lobell Construction Ltd have quality tradesmen and sub-contractors involved in their projects.

I would confidently recommend Lobell Construction Ltd to others and would welcome working with them in the future if the opportunity arises.

D J McNulty
