Hamilton,

20.02.2002.

To whom it may concern:

Lue Shaw Builders built our home in 1999. Our plan incorporated some different features and the use of some recycled materials.

We were very pleased with the workmanship of the building team and found them to be friendly, helpful and easy to work in with.

We made a number of changes to the original plan as we went along and Lue and his team patiently re-priced and rearranged things for us and made every effort to help us achieve our desired end result.

If Lue was not satisfied with any aspects of the work of his own builders or the subcontractors he would insist on it being redone even before we had noticed it needed doing!

We are continuing to enjoy our home and are happy to recommend Lue Shaw Builders to anyone else.

Roger & Kathy Brown.
